

Short Story (in a Small Space)

Write and shoot an original short story set entirely in a small space (park bench, laundromat, grocery store aisle, classroom, elevator, etc.).

The story must have at least two characters, a conflict, and a resolution. Minimum 3 minutes in length.

Use a variety of shot types, for example: wide, close up, high/low angle, tilt/pan, zoom, track, etc. Music, if used, must be original or royalty-free.

Export the project to Google Drive, using the [H.264](#) codec in Adobe Premiere Pro and share with me at speed.farris@sduhsd.net. The project file name should match the title on your Post Production Form. **Due by Wednesday, February 13th.**
